Think Sailing From France.

It appears that the detectives are satisfied that Crippen and his companion fled to France and made close connections with a steamer sailing for Canada. They general alarm asking for their apprehension reached the police of foreign coun-

From what port or upon what steamer, thought to have sailed is not made known. It is also possible that they left from a port of Germany or Spain, or embarking on the coast of France went first to the United States and thence to Canada. This is less probable, however, as such a route would have required more time and they could have hardly recahed the other side of the Atlantic ahead of the watch that had been placed for them.

The Canadian clue appears to have put new life into the Crippen search today.

Watching Continental Points.

steamer Sicilian as the vessel which the

RIPE FOR REFORM

Division in the Republican Ranks. Democrats United-Apprehension and Aims of Leaders.

Special From a Staff Correspondent. CONCORD, N. H., July 23 .- When one stops to realize that in staid and conservative old New Hampshire, the supposed home of all reactionary and standpat virtues-or vices, as you please-there will actually go into operation September 12 the nomination of elective candidates by direct primaries one gathers an idea of the change that has come o'er the spirit of the dreams of New England

A system regarded as peculiarly the Architectural Changes in In- property of radical states of the west to be applied to a conservative New England commonwealth-isn't that a striking commentary upon the growth of progressiveness in the republican party? If ten years ago one had forecasted such a situation in this state he would have been written down as a dreamer.

Yet it has taken only four years of effort to bring about this political miracle in New Hampshire. A small group of determined men-call them reformers, New York bank architects are working fanatics, visionaries, anything you please, upon the proposed changes. The super- for they will not care-set out to do this to carry into effect the rearrangements in the United States and progress in the affecting the personnel and business of direction of equalization of taxation, so

east front of the building on 15th street, ripe for reform. No man but one with him to cheat himself playing solitaire would deny that the politics and legislation of the state were dominated by the principal railroad system of the state. No candidate for an important nomination could secure it if the railroads were opposed to him. That was a mild way of putting it. No proponent of legislation could hope to pass it until he had delivered to the railroad lobbyists. It was determined by the uplifters that the only way to change that condition was change the system of nominations, take them away from the convention place the shipping departments on the dominated by a few leaders and put them in the hands of the people. After four years' effort they have suc-
